SUMMARY

Data analyst skilled in transforming raw data into actionable insights that drive smarter business decisions. Brings strong communication, problem-solving, and analytical thinking, with a collaborative approach to contributing value on data-driven teams. Experienced in adapting customer-focused skills into data analysis to uncover patterns, identify opportunities, and support strategic decision-making.

PROJECTS & PROFESSIONAL EXPERIENCE

Influenza Outbreak Analysis – Data Analyst

CareerFoundry | Jan 2025 – Feb 2025

- Cleaned and analyzed public health datasets to identify influenza trends and patterns.
- Built Python visualizations (Matplotlib, Seaborn) to track outbreak severity across regions.
- Delivered actionable insights on seasonal peaks to support decision-making.

Instacart Basket Analysis – Data Analyst

CareerFoundry | Mar 2025 – Apr 2025

- Cleaned and merged large Instacart datasets (~3M rows) to prepare for analysis.
- Conducted exploratory analysis and customer profiling, identifying purchasing trends by department and age group.
- Created dashboards and visualizations to communicate key business insights.

Apple – Repair Technician / Support Specialist (MH3)

Apple Inc. | Jan 2014 – Dec 2020

- Managed intake, repair, and return of Apple products, ensuring fast and high-quality service.
- Provided technical support, troubleshooting, and logistics (shipping, cleaning, packing).
- Improved repair workflows and boosted customer satisfaction.
- Utilized SAP and Excel to track macrochip shipments, maintaining accurate records of inventory flow between the U.S. and overseas facilities.

EDUCATION

CAREERFOUNDRY – DATA ANALYTICS PROGRAM (2025)

Sacramento, CA

BACHELORS IN ECONOMICS (2010)

Government College of Pakistan

ICS (INTERMEDIATE IN COMPUTER SCIENCE) (2008)

Government College of Pakistan

Studied Computer Science; gained early programming experience in C and C++.
